

# APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of filing in State Engineer's Office AUG 10 1982  
 Returned to applicant for correction SEP 22 1982  
 Corrected application filed \_\_\_\_\_  
 Map filed SEP 28 1982 under 46010

The applicant Southern Nevada Water Corporation  
P. O. Box 529, of Laughlin,  
Street and No. or P.O. Box No. City or Town  
Nevada 89046, hereby make S application for permission to appropriate the public  
State and Zip Code No.

waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.) Southern Nevada Water Corporation,  
Incorporated July 1982 at Las Vegas, Nevada

1. The source of the proposed appropriation is Underground aquifer  
Name of stream, lake, spring, underground or other source
2. The amount of water applied for is 1.0 second-feet  
One second-foot equals 448.83 gals. per min.  
 (a) If stored in reservoir give number of acre-feet \_\_\_\_\_
3. The water to be used for Quasi - Municipal purposes  
Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.
4. If use is for:
  - (a) Irrigation, state number of acres to be irrigated: \_\_\_\_\_
  - (b) Stockwater, state number and kinds of animals to be watered: \_\_\_\_\_
  - (c) Other use (describe fully under "No. 12. Remarks") \_\_\_\_\_
  - (d) Power:
    - (1) Horsepower developed \_\_\_\_\_
    - (2) Point of return of water to stream \_\_\_\_\_
5. The water is to be diverted from its source at the following point: In the SE $\frac{1}{4}$  of the NW $\frac{1}{4}$  of Section  
Describe as being within a 40-acre subdivision of public  
28, T32S R66E, MDM; from the SW corner of said Section 28 bears N 35°10'25" E  
survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.  
a distance of 3749.64 feet. (Map reference #2)
6. Place of use Sections, 28 and Government Lots 1, 2, 3 & 4 of Section 33 T32S R66E  
Describe by legal subdivision. If on unsurveyed land, it should be so stated.  
MDM
7. Use will begin about January 1 and end about December 31, of each year.  
Month and Day Month and Day
8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) 8" well 400' deep submersible 250 gpm  
State manner in which water is to be diverted, i.e. diversion structure, ditches and  
pump into distribution system  
flumes, drilled well with pump and motor, etc.
9. Estimated cost of works \$50,000

10. Estimated time required to construct works 2 months  
If well completed, describe works.
11. Estimated time required to complete the application of water to beneficial use Four years

12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

See attached summary for estimated water consumption.

The maximum potential by 1990 is 1,185,000 gallons per day. This equates to 110 gal/min. With proper sequencing of wells, the maximum pumpage from each well should not exceed 450 gal/min. Actual water usage from each well should not exceed 300 to 350 AF/year.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights and is further subject to revocation if and when water can be furnished by an entity such as a water district or a municipality engaged in furnishing water. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. It is understood that this right must allow for a reasonable lowering of the static water level. The well shall be equipped with a 2-inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The total combined duty of water under this permit and Permit 46010 shall not exceed 370 acre-feet per year.

In the event that such an entity or water district is not available to provide service within five(5) years from the date of issuance of this permit, the permittee is required to proceed to obtain a water supply from the Colorado River-Lake Mead which is the alternate source identified for the basis of the issuance of this revocable permit. The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and

not to exceed 1.0 cubic feet per second, but not to exceed 370.0 acre-feet annually.

Work must be prosecuted with reasonable diligence and be completed on or before February 4, 1984

Proof of completion of work shall be filed before March 4, 1984

Application of water to beneficial use shall be made on or before February 4, 1988

Proof of the application of water to beneficial use shall be filed on or before March 4, 1988

Map in support of proof of beneficial use shall be filed on or before

Completion of work filed IN TESTIMONY WHEREOF, I PETER G. MORROS,

State Engineer of Nevada, have hereunto set my hand and the seal of

Proof of beneficial use filed

my office, this 4th day of FEBRUARY,
